SUCCESSFUL INCLUSION WITH
MUSIC AND DANCE

Make *birds* chirp with just the blink of an eye?

With **MotionComposer**, everyone can make music and express themselves **individually and self-determined**.

How does it work?

Using an innovative camera system, the **MotionComposer** detects even the smallest movements and translates them into melodic sounds and unique music.

The **MotionComposer** is **easy to operate** and **works contact-free** - ideal even for people with complex disabilities.
