

# MOTIONCOMPOSER 3.0

Change the world with the blink of an eye!

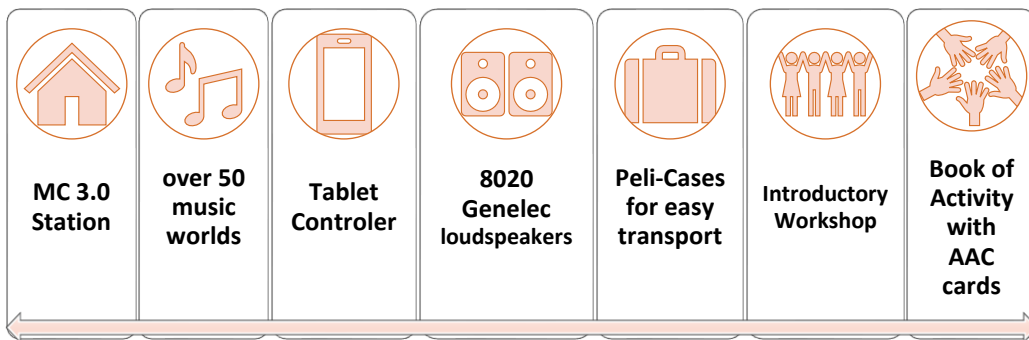

Using a 3D camera, this high-tech interactive tool transforms your movements into music.

Making birds chirp with the blink of your eye or making a piano sound in the air with a movement of your arm?

The MotionComposer 3.0 is a pioneering accomplishment in technology for creative expression in persons with different abilities. It is a unique motivation and movement tool with instant self-activation, that enables intuitive communication via non-verbal expression. It is ideally suited for those interested in exploring new methods in therapeutic or educational practice, and for institutions wanting to expand their creative offer.

The MC 3.0 includes:

12.450€ without VAT. 3-year warranty.

If you wish to see the MotionComposer in action, we offer demonstrations and workshops.
